Education and Honors

Nankai University · Master's Student in Cybersecurity — Sep 2025 - present (exp. Jun 2028)

Advisor: Xiang Li; Outstanding Student Communist Party Member (2026); InfoSec Association President (2025-2026).

China University of Petroleum (East China) · Computer Science and Technology — Sep 2021 - Jun 2025

Bachelor's degree with honors; National Scholarship (2024); Outstanding Graduate.

Research

- **Ollama in the Wild** · ACM IMC 2026 · First author.
  Longitudinal measurement of Internet-exposed Ollama LLM services: 362 observation days, 152k IPs.
- **RebirthDay Attack** · ACM CCS 2025 · Third author. DNS cache poisoning.
- **GhostCite** · IEEE S&P / CCF-NSS 2026 posters · Co-first author (1st listed).
  Citation validity in LLM outputs and research papers.
- **Agent Transfer Protocol (ATP)** · ACM IMC / CCF-NSS 2026 posters · Co-first author (3rd listed).
  Go protocol prototype: DNS discovery, signature authentication and cross-domain messaging.
- **CAIRN** · arXiv preprint · Co-first author (1st listed). Parallel multi-agent exploration.
- **aCAPTCHA** · arXiv preprint · First author. AI agent verification via asymmetric hardness.

Security and Protocols

- **CVE-2026-19668** (5.3); **CVE-2025-8677** (7.5); **CVE-2026-85501** (ReTrap, Medium).
  BIND 9 and Unbound DNSSEC vulnerabilities; co-reported with Xiang Li.
- **XMap** · ACSAC 2025 Artifacts Impact Award, 2nd place; fifth author of the artifact paper.
- **IETF draft-li-atp-02**, co-author (individual draft); IETF 126 Hackathon ATP demo (Vienna, Jul 2026).

Selected Awards

- **China Collegiate Computer Design** · National 1st Prize — 2024
- **China Software Cup** · National 2nd Prize — 2024
- **DataCon** · National 3rd Prize*2; 20th in the 2025 Internet Threat Analysis track — 2025 / 2024
- **GeekCon DAF** · Track winner (2nd Prize); **MCM** · Honorable Mention — 2025 / 2024
- **CUMCM** · Shandong 1st Prize — 2023

Projects and Open Source

- GitHub: 170 stars · 38,500+ total video views, 2,970+ likes.
- **LLM Teaching Platform** (94 stars): Vue 3/Django/Unity; teaching tools and text/voice interaction.
- **Wind Power Forecasting** (28 stars): TCN/LSTM/MLP time-series prediction and visualization.
- **QQ Voice Bot** (17 stars): OpenAI ChatGPT + Microsoft TTS for text/voice chat.
- **ROS2 YOLOv8** (10 stars): camera input, node messaging and object detection.
- Coursework: **pybicc** (99/100), C-like compiler; **Ource** (100/100), OS kernel in C.
